Be part of our **journey**

Croda is a global speciality chemical company inspired by nature. We produce the most innovative range of renewable, naturally derived ingredients in the world.

You probably don't know it, but you are already benefiting from our work as our pioneering products are vital to many leading brands.

We are committed to minimising our impact on the environment, developing our people and supporting local communities. Together, we are delivering innovative solutions for a sustainable future.

Visit our website today to find out how you can be part of our journey.

www.croda.com/careers

- Are you passionate about sustainable innovation?
- Are you self-motivated, with a proactive approach to solutions?
- Do you have a degree in Chemistry, Biochemistry or Engineering?

If yes, apply for one of our graduate schemes now!

Smart Science to Improve Lives™
